100 Million Years Ago

Queensland's Muttaborrasaurus!

1. Find the **skull of the Muttaborrasaurus** and draw it in the box below:

2. Look at the teeth inside the skull. Are they sharp or blunt? _____

3. What sorts of things do you think the Muttaborrasaurus ate?

4. Was it an herbivore or carnivore? _____

5. Look at the chamber on the top of the nose.
What do you think this was used for?

6. Can you name an animal today that has a
similar feature on its head or nose?
